24th February 2019

OPTIONAL

Rider Liability Waiver Information for the use of open-face style helmets

WA Gravity Enduro Round 1 – ‘Pemberton Mountain Bike Area’ 24th Feb 2019

WA Gravity Enduro strives to implement the necessary insurance conditions to promote and prioritise safe mountain bike racing for all volunteers, marshals, organisers, spectators and competitors to the best of our ability and to reflect this, WA Gravity Enduro must now enforce full-face helmets as an extra level of safety for our competitors when racing in the Gravity Enduro format.

In addition to the *[already accepted as part of entry]* MTBA Event Waiver and the WA Gravity Enduro Terms and Conditions found on the website, competitors are permitted to wear their Australian Standards open-face style helmet when competing in the Gravity Enduro race format for Round 1 of the WA Gravity Enduro 2019 Series in Pemberton on the 24th February 2019 only.

Competitors who choose this level of safety equipment do so at their own risk as their Mountain Bike Australia insurance cover may not apply if an injury occurs as a result of facial, neck, spinal damage or similar injury.

Competitors must determine their own level of safety equipment based on their own assessed level of mountain biking skill and experience in racing.

At no time can Mountain Bike Australia, WA Gravity Enduro, sponsor, supporter, competitor, volunteer, marshal, organiser, spectator or any other affiliated person or entity be sued for damages as a result of injury if a competitor chooses to wear an open-face style helmet for Round 1 of the WA Gravity Enduro 2019 Series in Pemberton on the 24th February 2019 only.
